## FOREWORD

The Dyrfal herd was founded with 50 British Friesians in 1953 in Llangadog, Carmarthenshire, by our Grandparents Jim and Ruth Partridge. In 1962, they moved to Caldicott Farm, Herefordshire. Our father Philip joined the business in 1970 after Jim's untimely death in 1978, aged 52. Philip expanded the herd to 120 cows, faced the introduction of milk quotas and survived Foot and Mouth. Ed and I joined the partnership in 2008 and took over the running of the business in 2010, when we obtained the tenancy at Lower Buckholt Farm. In 2010 we increased the herd to 230 and have expanded gradually to a peak of 500.

The breeding of the cows has always been a passion of ours. Holstein bloodlines were introduced in the 1980's. Exceptional traits were then introduced via A.I bulls alongside excellent stock bulls from the renowned Richaven Herd. During our herd expansion we purchased cattle from high health status breeders. Heifers have been purchased from the award winning Richaven Holsteins, Gold Cup-winning Miresdale Holsteins in Yorkshire and top quality heifers from Brownswood Holsteins.

Ed and I are very proud of our replacement heifers joining the herd. We feel each group of heifers are an improvement year on year and feel the genetics we have developed are our best asset. With emphasis placed on excellent udder attachment, strength, body depth, chest width, good legs and feet, we are producing heifers that will last. They are maturing into second calvers with capacity, power, style, yet are not too extreme, with productivity and efficiency to match. We are currently using 4m sexed semen on the best cows in the herd and the majority of the heifers. Current sires in use are: EDG Rubicon sexed, Mardigras sexed, Achieve sexed, Supershot sexed and Aladdin Red sexed on the large cohort of red cows. Belgium Blue Triple Impact and the very easy calving Belgium Blue Jimbo have been used across the herd to increase beef income.

Our age at first calving has reduced to under 23 months since starting inseminating the heifers with sexed semen 4 years ago. The first lactation heifers are averaging 8500 litres which is helping them fall back in calf. Once into their second lactation they are up to over 11,000 litres. Our breeding traits have given us cows that are suited to a large herd environment but get in calf and last. The breeding, along with attention to detail that Ed and I have strived to, has improved the technical performance of the herd dramatically over the last 10 years. The average yield when we took over the herd in 2008 was 7,500 litres. The herd is now 11,200 litres and rising, with a daily average sold of 39.7 litres per cow. Calving interval is 387 days, pregnancy rates averaging 22%, clinical mastitis cases are 11%, mobility at 95% 0's and 1's, SCC average 165, Bf 3.7% and Protein 3.3%. The health status of the herd is excellent. Bulk milk samples for BVD are all negative and all calves are ear tagged for BVD. We are currently on annual T.B testing and have an extremely low incidence of Johnes which is quarterly screened. The herd is vaccinated for BVD, Lepto and IBR.

We have had to make an incredibly hard decision to stop dairying. The last three years have put the business under an immense amount of pressure due to having unstable milk and beef calf contracts, extreme weather conditions, inadequate local infrastructure and labour issues. In addition to this, the need for further substantial

capital investment in slurry storage, youngstock and cattle housing facilities as tenant farmers. These challenges have crystallised our decision to exit.

We would like to thank everyone who has helped us grow our business. Andrew Cooke and Bill Main at Belmont Vets, Mark Digwood our foot trimmer, our Consultants Ed Lott from Kite Consulting and Richard Cooper from EBVC, Henry and Michael Westoby and their Contracting team that have worked with us for nearly 30 years and given us an excellent service. We would like to thank all the staff who have helped us run the business, with special mention to Adam, Alice and Lucas who have been with us for 6 years, without whom, we physically couldn't have run the dairy.

We wish you all the very best of luck with the heifers and hope they perform as well as the cows did for us. We hope you were pleased with our cows and we look forward to seeing you again on the 18th April.

*Oli and Ed Partridge*
