3. The Auctioneers act in all respects only as agents for the Vendor and it shall be deemed that no condition or warranty expressed or implied has in any circumstances been given by the Auctioneers or any servant of the Auctioneers, whether as to title, description, the quality of any lot sold or otherwise. The Auctioneers and their servants shall not incur any liability to the Purchaser in respect of any defect of title, error of description or imperfection or in respect of any announcement or statement relating to or affecting any lot offered for sale whether made orally or in writing and whether given before, during or after the auction, nor shall they incur any liability in relation to any dispute between any Purchaser and Vendor.

8. The Purchaser shall, when requested, give his name and address to the Auctioneers and unless otherwise agreed by the Auctioneers and the Purchasers shall pay for the lot(s) he has purchased ON THE DAY OF SALE. All lots are sold on condition that the ownership of the same shall remain with the Vendor and no property in the lots whether legal or equitable shall pass to the Purchaser and no lot(s) shall be removed from the premises unless or until:

10. If, notwithstanding Condition 8 above, the Auctioneer permits the Purchaser to remove his lot from the sale premises prior to payment in full having been received then:
 - (a) Ownership of the same shall remain with the Vendor and no property in the lot whether legal or equitable shall pass from the Vendor to the Purchaser until payment of the full price has been received in cleared funds by the Auctioneer or the Vendor (as the case may be). Payment shall, unless otherwise agreed, be made to the Auctioneers.
 - (b) the Purchaser undertakes to house the lot on his premises separate from his own and those of any other person and in such manner as makes it readily identifiable as the Vendor's;
 - (c) the Purchaser's right to possession of the lot shall automatically cease immediately prior to his doing anything or failing to do anything which would entitle a Receiver to take possession of the lot(s) or which would entitle any person to present a petition for the winding up of the Purchaser;
 - (d) the Vendor or the Auctioneers may for the purpose of examination or recovery of any lot remaining unpaid enter upon any premises, where it is housed or where it is reasonably thought to be housed;
 - (e) if the Purchaser shall sell on the lot, then such part of the proceeds of such resale as equates to the full price of the lot remaining unpaid shall be held by the Purchaser in a separate bank account as trustee thereof on the Vendor's behalf.
11. Without prejudice to any other right or remedy of the Vendor or the Auctioneers, if the Purchaser shall be in breach of any other Composite Conditions, the Vendor or the Auctioneers shall have power to resell the lot(s) purchased by the Purchaser retaining any surplus and charging any deficiency or expense to the Purchaser.
12. Neither the Vendor nor the Auctioneers will be responsible for any accidents or injury, not arising out of their negligence, which happens to any person or property while on the sale premises. Vehicles are parked at their owner's risk.

FOREWORD

My father started the dairy herd at Hayway Farm in 1967 with a herd of 70 cows on a traditional grazing system. In 1993 Sara and I took over the day to day management of the herd, and ran it alongside an existing agricultural contracting business. In 2003 we decided to give up the contracting business to concentrate entirely on the dairy herd, when we increased the herd to 170 with bought in cows and heifers. Around the same time, we decided to breed our own replacements, and since 2012 no dairy animals have been bought in.

The Cows have been bred for longevity, milk quality and yield. Heifers calve in at between 24 and 26 months with cows averaging 9,900 Litres and heifers 8,500 litres at 4.01% Fat and 3.26% Protein. The herd is milked twice a day and consistently averages 31 to 32 litres per cow per day.

It has been a very hard decision to sell our herd, but the business has now got to the stage where major capital re-investment is required and with no one willing to take the business on, and with age and health against us, we feel now is the time to cease milk production at Hayway Farm.

Sara and I very much appreciate the help given to us, by various friends and businesses, over the last 26 years and would like to give sincere thanks to you all.

We wish all buyers well with their purchases, and thank you all for coming today.

Don Ingles

VETERINARY NOTES

Tyndale Vets have been responsible for the veterinary care of the cattle at Hayway farm for over 10 years. In this time the dedication and hard work of Don and Sara to the herd along with its continued genetic improvement has shown the results seen today.

The herd is monitored to be free of IBR, BVD, and Lepto together with very low rates of any calf problems. All heifer replacements are fed powdered milk only. Mastitis and lameness rates are very low and there are no 'red' Johnes cows. There has been no TB for many years and a recent clear TB test of the whole herd.

This is a genuine high disease status herd with no problems that a buyer should be concerned about.

The herd has fortnightly routine fertility visits as well as regular foot trimming throughout the whole time Tyndale Vets has been involved with the herd. The proactive management by Don, Sara in collaboration with all advisors to the farm has produced a herd to be proud of.

We wish Don, Sara and Vicki all the best for their sale and for the continued good health at their new homes.
