FOREWORD

The sale of our Highelm herd of high yielding, robot milked Holstein Friesians has been brought about by a change in farming policy. All the higher yielding cows, together with cows which are giving to much milk to dry off, will be included in this sale, the others will be sold as they calve through Market Drayton.

Times have changed in dairying over the years, we are now on the fourth generation farming here at Higher Elms Farm and the family have farmed here for 95 years. We have changed many things over the years and most notable, was the move to a green field site and conversion to Robotic milking, some 5 years ago.

Over that time, we have bred cows for longevity, with good udders, to suit the robots, combined with good legs and feet to cope with housing and cubicles. We have found that by using the robots cows are given more milk but more importantly are lasting longer.

We would to thank, all who have helped us over the years and wish you all the best with your purchases here today.

HERD HEALTH AND MANAGEMENT SUMMARY

Holding number: 06/237/0017
Herd Mark: 161137
Last TB test: 1.12.20
No evidence of Leptospirosis, BVD and IBR.
Monitored for Johnes, Low Risk
Dry cow therapy: Cepravin
The herd is housed in cubicles
The herd milked through Lely Robots
The herd is fed grass and Maize silage with a blend and concentrates through the robots.

MILK RECORDS

Herd Average: 10000 kgs 3.98%F 3.30%P cc150

THE FIRST SALE TO DISPERSE THE HIGHELM HERD

93 cows and heifers' in-milk and/or in-calf

COWS AND HEIFERS IN-MILK AND/OR IN-CALF

Note: Cell counts are monitored on conductivity through the robots, all cows in the sale have no issues so should all be low.
