## DRY COW THERAPY

Whilst every effort is made to catalogue or announce the correct information regarding dry cow therapy, the Auctioneers recommend that Purchasers check with the vendor for the latest drying off dates. The Auctioneers are not responsible for any consequential losses resulting from purchasers wrongly milking cows that have been treated with dry cow therapy.

In the case of clinical Johne's disease this will be a 35 day warranty.

## **FOREWORD**

The herd at Wilverley was founded during the early 1970's with the purchase of some of the best bloodlines around to form the pedigree Wilverley herd that produced many successful show cows. The herd is now run on a commercial basis and has been closed for the past 40 years with Ian Bunney being at the helm for the last 10 years. The farm is located on the edge of the New Forest and the cows are grazed out for as long as the weather allows. The cows and heifers are being dispersed due to a change in circumstances on the Estate.

### **HERD MANAGEMENT**

The cows are fed a partial TMR consisting of grass and maize silage plus a blend. In addition, they are fed to yield through the Herringbone Parlour. The cows graze for as long as possible and are CUBICLE housed during the winter. This relatively simple system has produced the following creditable NMR averages for the year:-

8810 kgs. 4.23% Butterfat 3.20% Protein SCC= 198

### **CALVING PATTERN**

The herd calves throughout the year with the following approximate calving pattern:-

January 2024 (5); March (7); April (10); June (14); July (4);  
August (5); September (1); October (1).

### **YOUNG COWS**

There are a spread of ages in the catalogue as follows:-

19 1st Lactation  
11 2nd Lactation  
12 3rd Lactation  
14 4th Lactation

Plus 19 in their 5th+ lactation demonstrating the longevity of the breeding at Wilverley

### **SIRES AND SERVICE SIRES**

The herd has used mainly Genus sires with type being a priority to produce healthy, hardy cows that are not extreme with the following bulls represented in the catalogue:-

**Dairy Cows and Heifers:-** St Gen RR Applefree Red (24); Horstyle Moscow Montney (9); Carnhill Iota Acer (9); Olmar Jeeves Dare (7); Ladys-Manor RD Grafeeti (5); Sahara Baloo (3); etc.

**Maiden Heifers:-** Gin Amour (7); Pine-Tree Verona (7); etc.

**Service Sire:-** The herd has run with the homebred Hereford X bull.

### **HERD HEALTH**

The herd is accredited BVD Free and is monitored for Johnes. Being a closed high health herd no vaccinations have been necessary.

The cattle were pre-movement tested on the 20th February 2024.

Dry cows are treated with Cepravin and Orbeseal dry cow therapy.

### **AUCTIONEERS' COMMENTS**

On inspection the quality of the foundation cows at Wilverley shows through with good bodied cows with good feet and udders found in the herd today. This very genuine herd has not been pushed and would suit a number of different systems, the youngstock are a credit to the farm. This sale comes highly recommended.

**Greenslade Taylor Hunt**
