DROUGHT AFFECTED DAIRY TRADE

The lack of grass, record straw prices and the imposition of strict TB re-stocking restrictions had a serious impact on the sale of dairy cattle despite the high quality entry.

Two calved heifers from Geoff Morgan, Tewkesbury, Gloucestershire, averaged nearly £1,900 at £1,850gns and 1,750gns.

Other heifers sold to 1,650gns and 1,600gns.

There were no quality cows on offer with served heifers selling to 1,000gns a number of times.
