

MARKET DRAYTON DAIRY SALES

MONDAY 01 NOVEMBER 2021 (10.30AM)

262 DAIRY CATTLE (103 HERD DISPERSALS & 159 YOUNGSTOCK)

HERD DISPERSALS

Auctioneer: Gwilym Richards (07768 020393)

Three small herd dispersals preceded the Monthly Sale of Dairy Youngstock with several new buyers present.

The dispersal of David Waring's flying herd moved from their Eccleshall farm peaked at £1,580 for a heifer dried off for calving next month to the Angus which went to a new Cheshire home. Two milkers sold for £1,550, the first was a third calver which was two months calved and purchased by a Staffordshire buyer, and the second was a fortnight calved second calver purchased by a Montgomeryshire buyer. Fourth calvers sold to £1,520.

A Shorthorn heifer due with her next Angus calf in December sold for £1,500 to a Cardiganshire buyer. The same buyer took home the top priced British Friesian in-calf heifers at £1,450 and £1,400, the latter forming part of the herd dispersal for Messrs Morgan of Glamorgan. Another Glamorgan herd sold to £1,100 for August calved loose housed cows for Messrs Jones.

YOUNGSTOCK

Auctioneers: Jason Brown (07774 816384) & Jonty Cliffe (07595 453306)

More cattle forward as we expected, as men bring youngstock in off grass and look to make shed space.

A good attendance of buyers, as well as a pleasing number of online purchasers kept the trade consistent throughout the sale.

Trade was strong for the time of year, but each price reflected the quality of animal in the ring.

Top price was £1,450 for a December calving heifer from N Fryer & Son, Wincham.

A good proportion of spring calving heifers forward which realised £750 to £1,100.

A run of bulling heifers sold to £730 for JM Griffiths, Nantwich. The same vendor sold June/July born calves to £370.
