VENDOR'S FOREWORD

In November this year I will reach retirement age and, with no next generation following on, Suzanne and I have decided to retire from farming. We started dairy farming as first generation farmers in 1993 on a Leicestershire County Council farm moving to a larger farm on the estate in 2001 where we have remained ever since.

When we started farming in October 1993, all that really mattered was how much quota you owned. Our first milk cheque was from the MMB (24 ppl – not too shabby back then). Nowadays, the most important consideration in dairying is the quality of the milk contract. Since 2007, we have supplied milk to Tesco via Muller/TSDG and this contract has served us very well for 19 years.

As the herd has grown over the years, we have sought to maximise profitability with the resources available to us. This has taken us down the road of autumn calving, paddock grazing, high PLI cows that are fertile and that milk well through the winter on high intakes of good quality forage (our cows always eat 17+kgs per day forage dry matter in the winter) and are fed modest levels of concentrates. Key performance figures from our most recent Milkfinder costings are as follows:

Yield per cow	9515 litres
Butterfat	4.65%
Protein	3.59%
Concentrate use	2.294 tons per cow
Yield from all forage	4511 litres per cow
MOPF	£3477 per cow

Over the decades, we have always used the highest index bulls available to us going back to the likes of Sunnyboy etc. Replacement heifer calves have only come from those cows calving in the first three weeks of the calving season so, by default, they have only come from cows and heifers that held to first service. In my opinion, this has been a driver for fertile cattle giving decent yields of solids. Of the cattle for sale, around 200 will be fresh calved since 1st August. Bulling heifers are housed in kennels.

This year's heifers that have/are calving are largely by Genosource Captain. We had some cattle calving by this bull three years ago and I was so impressed with them that I ordered 120 straws of Captain sexed semen and had 61 daughters from that batch of semen. Calving down now, they are just super heifers – I wish I could carry on milking them through this winter although the divorce may prove to be costly if I did!

 - (a) Ownership of the same shall remain with the Vendor and no property in the lot whether legal or equitable shall pass from the Vendor to the Purchaser until payment of the full price has been received in cleared funds by the Auctioneer or the Vendor (as the case may be). Payment shall, unless otherwise agreed, be made to the Auctioneers.
 - (b) the Purchaser undertakes to house the lot on his premises separate from his own and those of any other person and in such manner as makes it readily identifiable as the Vendor's;
 - (c) the Purchaser's right to possession of the lot shall automatically cease immediately prior to his doing anything or failing to do anything which would entitle a Receiver to take possession of the lot(s) or which would entitle any person to present a petition for the winding up of the Purchaser;
 - (d) the Vendor or the Auctioneers may for the purpose of examination or recovery of any lot remaining unpaid enter upon any premises, where it is housed or where it is reasonably thought to be housed;
 - (e) if the Purchaser shall sell on the lot, then such part of the proceeds of such resale as equates to the full price of the lot remaining unpaid shall be held by the Purchaser in a separate bank account as trustee thereof on the Vendor's behalf.
11. Without prejudice to any other right or remedy of the Vendor or the Auctioneers, if the Purchaser shall be in breach of any other Composite Conditions, the Vendor or the Auctioneers shall have power to resell the lot(s) purchased by the Purchaser retaining any surplus and charging any deficiency or expense to the Purchaser.
12. Neither the Vendor nor the Auctioneers will be responsible for any accidents or injury, not arising out of their negligence, which happens to any person or property while on the sale premises. Vehicles are parked at their owner's risk.
