## FOREWORD

We, the Williams family moved to Upper Grange Farm in 1962. Starting out with a few cows in an old tie-stall barn, the dairy herd then started taking shape, later installing the first Herringbone parlour in Monmouthshire to milk our then Friesian cows. We have now continued into the third generation breeding and developing our herd of Holstein Friesian.

We introduced the Lely A2 robots in 2004 which revolutionised our business, moved to Lely A4's in 2012. Now being fully cubicle-housed, and focussing the breeding on health traits, efficient production, and udder, feet and legs, whilst ensuring increased stature and angularity are avoided; the herd is currently averaging 32.5litres with 4.22% fat and 3.31% protein.

It is with deep sadness that our herd is now being dispersed due to increased milk price volatility with our milk buyer and a lack of alternative processors in the area.

Although the 27th April will be a sad day, we feel proud of what we have achieved with our herd and are now looking forward to new ventures at Upper Grange Farm.

This truly is a herd of cows that anyone would be proud to own, with something for everyone.

We look forward to seeing you at Sedgemoor Livestock Market on 27th April and wish you well with your purchases at the sale.

*The Williams Family*
