VENDOR'S FOREWORD

R Cooper & Son Ltd have farmed at Bridge Farm since 1954, after Ralph & Olive Cooper and their family walked their herd down from Lower Bank Farm, Mow Cop. Ralph Graham their only son joined his dad working on the family farm from an early age and when he left school, he joined his parents full time in running the farm. Graham expanded the farm and built the cubicle sheds that house the cows still today and has been the driving force into making the farm what it has become.

At Bridge Farm we pride ourselves on high welfare for our cows. The cows are quiet to milk and enjoy the calming environment that the staff provide. Although we are not a full pedigree herd many of our cows have a pedigree background, with the in-calf heifers and maiden heifers coming from Cogent Breeding, using sires such as Rubicon, Pinetree Cruzer, Drouner K & L Chase and Geno source Captain. Graham has always invested in equipment and technology to help achieve the best for the cows to ensure that they are happy, healthy and productive. However, as life inevitably changes, so too does the course of the farm.

Unfortunately, due to Graham's recent ill health at the age of 81 years old, the difficult decision has been made to sell the herd and continue with focus on crops production to remove some of the pressures and challenges that goes along with farming today. This marks the end of an era for Bridge Farm

We would like to take this moment to express our deepest gratitude to all the staff, family, and friends who have been part of Bridge Farm's journey. Their tireless dedication, support, and hard work over the years have been invaluable, and they will always be considered part of the Bridge Farm family.

The Cooper Family

VET'S REPORT

It has been a pleasure to work with Graham and the team at Bridge Farm over the past 16 years. Throughout that time, the herd has seen many changes, all of which have been met with professionalism and dedication. This has resulted in a robust and productive commercial herd, now offered for sale.

Currently, the herd is averaging 32 litres per cow per day, with a 21-day pregnancy rate of 24%. The bulk milk somatic cell count (SCC) is 160,000, and the Bactoscan is 22.

The herd is up to date with a comprehensive vaccination program:

- BVD – Bovela (Vaccinated: August 2025)
- IBR – Hiprabovis IBR Marker Live, 6-monthly (Vaccinated: July 2025)
- Leptospirosis – (Due: November 2025)
- Bluetongue – Bultavo BT3 (Vaccinated: May 2025)
- Rotavirus/Coronavirus/K99 – (all dry cows)

In addition:

- The herd has been Johne's disease monitored for the past 18 months, with an average test value of 6.4.
- The herd has tested negative for liver fluke.

This is a strong, well-cared-for herd, reflective of the high standards consistently maintained at Bridge Farm.

On behalf of Sandstone Vet Group, I would like to thank everyone involved at Bridge Farm for their custom, support and friendship over the years and wish them all the very best for the future.

3. The Auctioneers act in all respects only as agents for the Vendor and it shall be deemed that no condition or warranty expressed or implied has in any circumstances been given by the Auctioneers or any servant of the Auctioneers, whether as to title, description, the quality of any lot sold or otherwise. The Auctioneers and their servants shall not incur any liability to the Purchaser in respect of any defect of title, error of description or imperfection or in respect of any announcement or statement relating to or affecting any lot offered for sale whether made orally or in writing and whether given before, during or after the auction, nor shall they incur any liability in relation to any dispute between any Purchaser and Vendor.

Notwithstanding Conditions 8 and 10 each lot shall be at the absolute risk and at the expense of its respective Purchaser at the fall of the hammer and subject to Conditions 8 and 10 shall be removed from the sale premises at the Purchaser's expense within the time stated by the Auctioneers at the commencement of the sale.
10. If, notwithstanding Condition 8 above, the Auctioneer permits the Purchaser to remove his lot from the sale premises prior to payment in full having been received then:
 - (a) Ownership of the same shall remain with the Vendor and no property in the lot whether legal or equitable shall pass from the Vendor to the Purchaser until payment of the full price has been received in cleared funds by the Auctioneer or the Vendor (as the case may be). Payment shall, unless otherwise agreed, be made to the Auctioneers.
 - (b) the Purchaser undertakes to house the lot on his premises separate from his own and those of any other person and in such manner as makes it readily identifiable as the Vendor's;
 - (c) the Purchaser's right to possession of the lot shall automatically cease immediately prior to his doing anything or failing to do anything which would entitle a Receiver to take possession of the lot(s) or which would entitle any person to present a petition for the winding up of the Purchaser;
 - (d) the Vendor or the Auctioneers may for the purpose of examination or recovery of any lot remaining unpaid enter upon any premises, where it is housed or where it is reasonably thought to be housed;
 - (e) if the Purchaser shall sell on the lot, then such part of the proceeds of such resale as equates to the full price of the lot remaining unpaid shall be held by the Purchaser in a separate bank account as trustee thereof on the Vendor's behalf.
11. Without prejudice to any other right or remedy of the Vendor or the Auctioneers, if the Purchaser shall be in breach of any other Composite Conditions, the Vendor or the Auctioneers shall have power to resell the lot(s) purchased by the Purchaser retaining any surplus and charging any deficiency or expense to the Purchaser.
12. Neither the Vendor nor the Auctioneers will be responsible for any accidents or injury, not arising out of their negligence, which happens to any person or property while on the sale premises. Vehicles are parked at their owner's risk.
